Digital Study Model Price List

The **ortho • graphics** software needed to view your digital 3D study models is provided **Free of charge**.

ortho • graphics digital study models \$32.50 Fully sculpted.

You send us impressions that we will pour and fabricate into a set of study models. These models will then be scanned and the image converted to a digital file that will be ready for you to download to your computer via the Internet using the ortho-graphics software. We also store a copy of these files and can send them to you on a CD if requested.

"Economy" digital models \$30.00 A less expensive version with the only difference being the sculpting or blending of the tissue to the base is not to the same fine degree as the above-mentioned.

"NEW" "Rough-Cut" digital models \$25.95 These images are made from the same high quality scans and the models are rough cut for an economical price! An excellent choice for the best value.

returned plaster models

Many customers would like to have plaster models returned in addition to the digital models. We can return the original models used to create the scan for a slight additional fee. **\$6.50 un-polished or \$8.95 polished.** This must be specified on the lab slip at the time of the original order.

Shipping Instructions

Take impressions in the usual way, we suggest using *Cadco Identic* fast set alginate. Using plastic disposable impression trays will eliminate return shipping charges for metal trays. Wrap them in a wet paper towels and seal in a plastic bag along with an accurate wax bite. Fill out a prescription form for each patient's impressions but do not place in bag with the impressions.

We have several shipping options for you to choose from depending on your volume, preference, and proximity to our lab. For example: you can ship any quantity of impressions in one package with our prepaid UPS return labels for a fixed cost of only \$5.00. Packing as many sets per package as feasible will minimize your shipping costs. Please contact us for details.

Digital models made from poured casts subject to additional \$9.95 duplication fee.
